Separate All Parts into Groups (as shown) and Familiarize. Read All Instructions Before Beginning Assembly.

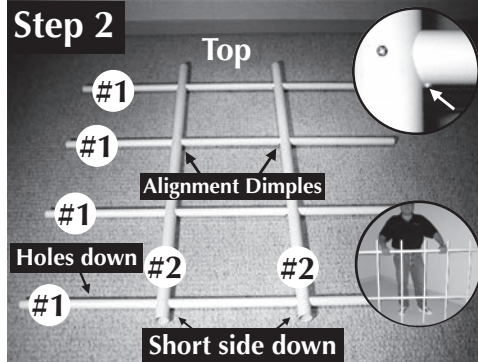

IMPORTANT: Do not install any fasteners until instructed!

Numbers in **BOLD** indicate item number from Parts/Fastener Lists.

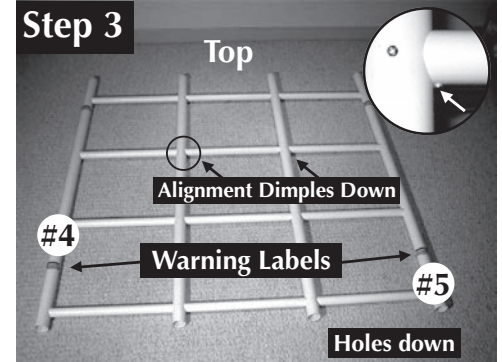

FRONT GRID ASSEMBLY

Parts Needed:
4 of #1 2 of #2
1 of #4 1 of #5

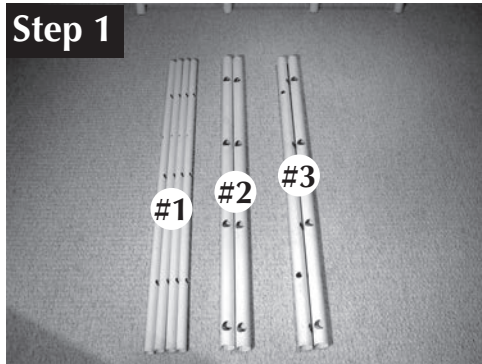

4 Horizontal Crossbars (#1) inserted through
2 Center Verticals (#2)
Tip: When installing second Center Vertical, stand assembly with Horizontal Crossbars placed on floor and push down second Center Vertical to Alignment Dimples.

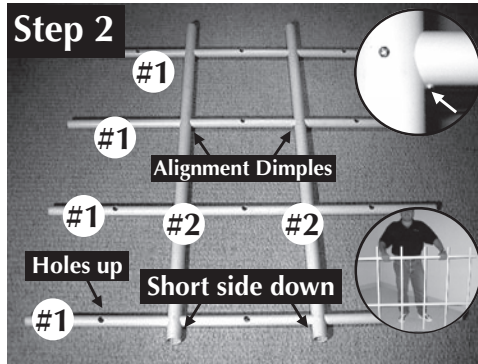

1 Left Front Corner Vertical (#4) and 1 Right Front Corner Vertical (#5) Placed on Horizontal Crossbars

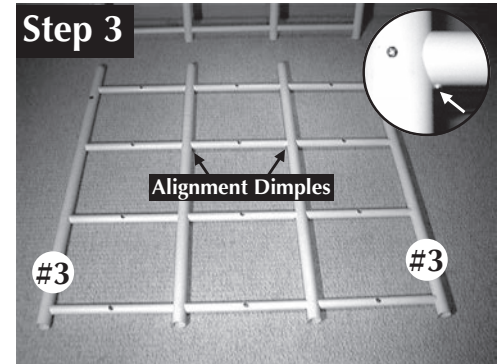

REAR GRID ASSEMBLY

Parts Needed:
4 of #1 2 of #2
2 of #3

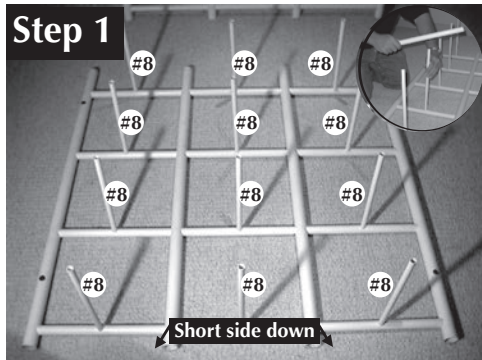

4 Horizontal Crossbars (#1) inserted through
2 Center Verticals (#2)
Tip: When installing second Center Vertical, stand assembly with Horizontal Crossbars placed on floor and push down second Center Vertical to Alignment Dimples.

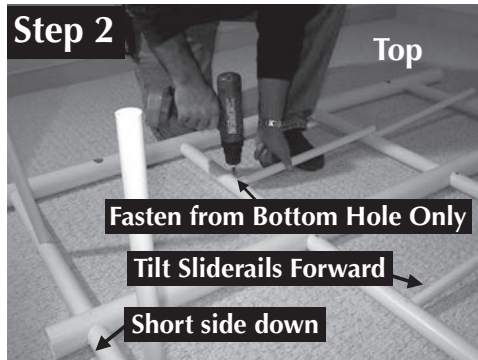

2 Left and Right Rear Corner Verticals (#3) Placed on Horizontal Crossbars

SLIDERAIL ASSEMBLY

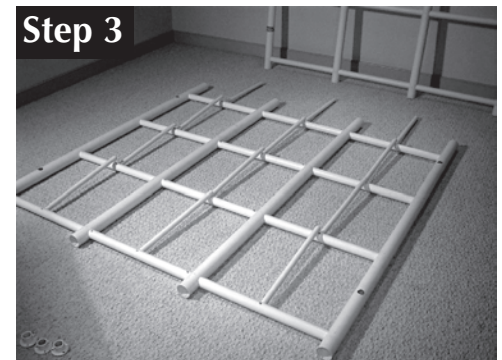

12 Horizontal Sliderails (#8) inserted in Rear Grid

Tip: If necessary tap Horizontal Sliderails to be sure Sliderails are fully inserted

Fastening Horizontal Sliderails (#8) in Rear Grid using 12 - #06 x 1/2" Fastening Screws (#1)
Note: Start at top row and work down
Use only one fastener - Bottom Hole Only

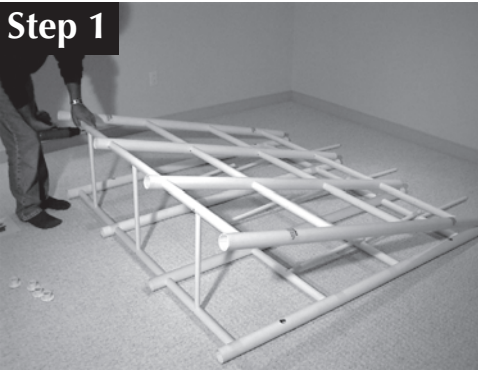

All Horizontal Sliderails fastened to Rear Grid
Note: Fastener in Bottom Hole Only

IMPORTANT: Do not install any fasteners until instructed!

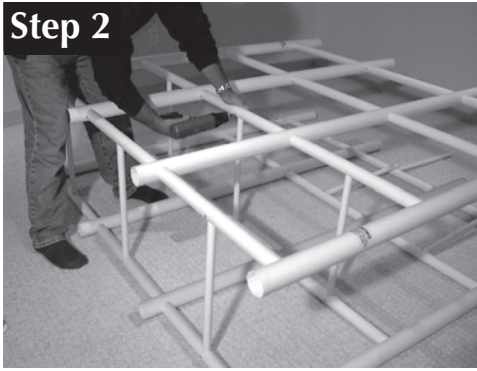

JOINING FRONT TO REAR GRID

Step 1

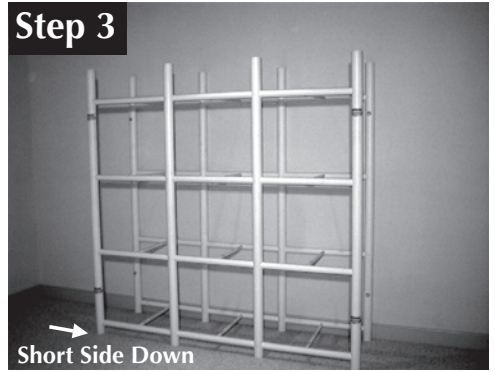

Insert Bottom Sliderails (#8) into Front Grid Assemble and fasten (*making sure fully inserted*) using 3- #06 x 1/2" Fastening Screws (#1)
Note: Fasteners in Bottom Hole Only

Step 2

Insert and fasten next 3 rows of Sliderail to Front Grid using 9 - #06 x 1/2" Fastening Screws (#1)
Note: Fasteners in Bottom Hole Only

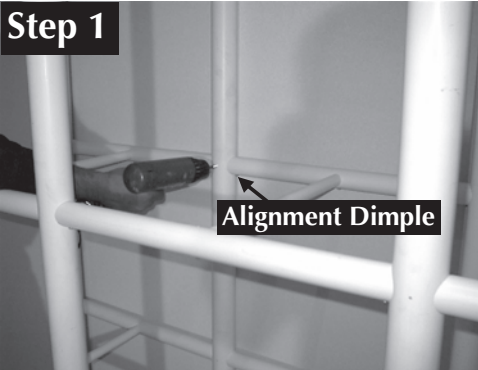

Step 3

Turn unit upright and place firmly against wall where unit is to be mounted.

FASTENING VERTICALS & WALLMOUNT TUBES

Step 1

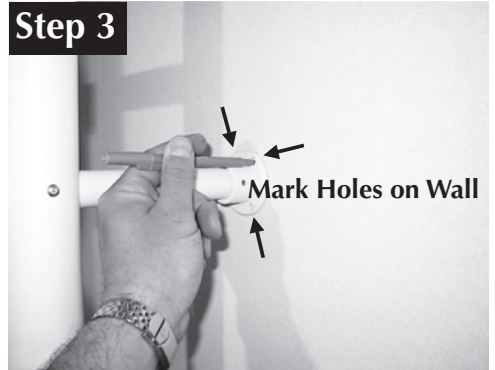

Fasten all Verticals to Horizontals. Make sure all joints are pressed firmly together, tight and against alignment dimples.
32 - #06 x 1/2" Fastening Screws (#1)
Note: 1 Fastener Per Joint, each grid, Front Side Only

Step 2

Move unit away from wall and insert 4 Wallmount Extension Tubes (#7) at 4 Locations. Fasten With 8 - #08 x 3/4" Extension Tube Fastening Screws (#2)
Note: 1 Fastener Per Joint Front Side Only

Step 3

Slide Wallmount Flange (#6) into Wallmount Tube (#7) Place unit against wall where it is to be mounted and mark Wall Flange holes.
Note: Do NOT fasten at this time. Make sure unit remains in position at all 4 locations while marking holes.

FASTENING BIN WAREHOUSE TO WALL

Move unit away from wall and remove Wall Flanges from Tubes and mount Flanges to wall using 12 #10 x 1-1/2" Wall Mount Flange Screws (#3) and Plastic Wall Anchors (#4) if needed.
Note: If mounted into Masonry or Drywall, drill three 1/4" holes to accept Plastic Wall Anchors.

Slide unit back against wall while inserting all 4 Wallmount Extension Tubes (#7) into Wallmount Flanges (#6) and fasten with 4 - #06 x 1/2" Fastening Screws (#1).
Note: 1 Screw per Flange

Unit MUST be attached to wall to prevent from tipping over!

Congratulations!

We Hope You Enjoy Your Bin Warehouse!
